Scale is 1/8" = 1 inch

**24x30 ~ Vertical
Wall Portrait**

24x30 Verticals are perfect for standing or scenic poses of five or less in a group with a viewing distance of approx. 12-18 feet.

**20x30 ~ Horizontal Only
Wall Portrait**

20x30's are great for individual families who enjoy a panoramic background and are ideal for outdoors or long horizontal poses. Viewing distance is approx. 8-10 feet.

**24x30 ~ Horizontal
Wall Portrait**

24x30 Horizontal portraits are suited for an individual family with a viewing distance of 12-18 feet. A larger family would also work, the head sizes would be proportionally smaller.

**30x40 ~ Horizontal (most common, can also be vertical)
Wall Portrait**

30x40's Are an ideal family size in that it shows the appropriate head size and also keeps the background for a complete look. 30x40's can be viewed from 14-20 feet when there is an individual family. Head sizes will be reduced proportionally as the family size is larger.

40x60 Is also available and are considered the perfect "above the sofa" sized wall portrait.
